

The logo features the word "DOOGE" in a white, bubbly font with blue outlines and a dark blue drop shadow. The word "DASH" is in a similar font, but the letter "A" is replaced by a gold dogecoin with a white "\$" symbol. The entire logo is set against a blue background with stylized white and light blue clouds.

CONCLUSION

ABOUT

Doge Dash is a play-to-earn gaming and NFT ecosystem utilizing the **\$DOGEDASH** token built on the **Binance Smart Chain**.

"Crypto Gaming Made Easy"

... is our ethos; we want to simplify play-to-earn gaming to attract the 99% of the world's population that isn't currently in the crypto space.

We've rebuilt crypto gaming from the ground up with a familiar **arcade-style** approach in mind.

The ever expanding ecosystem consists of games, NFTs, merchandise, staking and much more.

2022 is set to be our biggest year yet as we develop more games and move into the Metaverse.

GAMEPLAY

Doge Dash features 10 fun, fast paced levels with the degree of difficulty increasing as the player progresses. Players must dash over and under platforms, monsters and even a zombie infested city to reach the Dog House and complete the game.

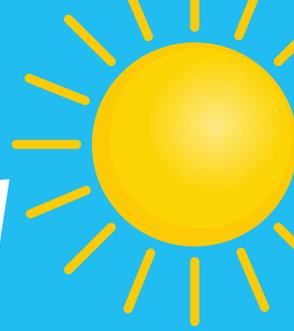

There are 3 difficulty settings, "**Easy**", "**Medium**" and "**Elite**". "**Easy**" grants the players 3x lives with a max reward of 1,000 coins, "**Medium**" 2x lives with a max reward of 3,000 and for the pro gamer there is "**Elite**" mode which offers a max reward of 10,000 coins but with only 1x Life.

If a player completes the game by reaching the dog house at the end of level 10 the collected coins are available to be claimed to their crypto wallet and tradeable instantly. Simple

NFT COLLECTION

Doge Dash NFTs act as skins in the game and also grant holders unique in-game "**Super Powers**" plus entry to exclusive online events.

The collection features six "**Super Powers**"

There are an additional 25 **Ultra Rare** 1:1 NFTs based on **pop-culture** and **gaming icons** including Mario, Batman and Spiderman. All of which combine all the "**Super Powers**" mentioned above

TOKEN UTILITY

#**DOGEDASH** is the ecosystem and game's native currency. Used to purchase lives and earned in the form of rewards.

There is a 5% Tax on each transaction, designed to provide an ever replenished budget for **marketing** and a **deflationary** total supply

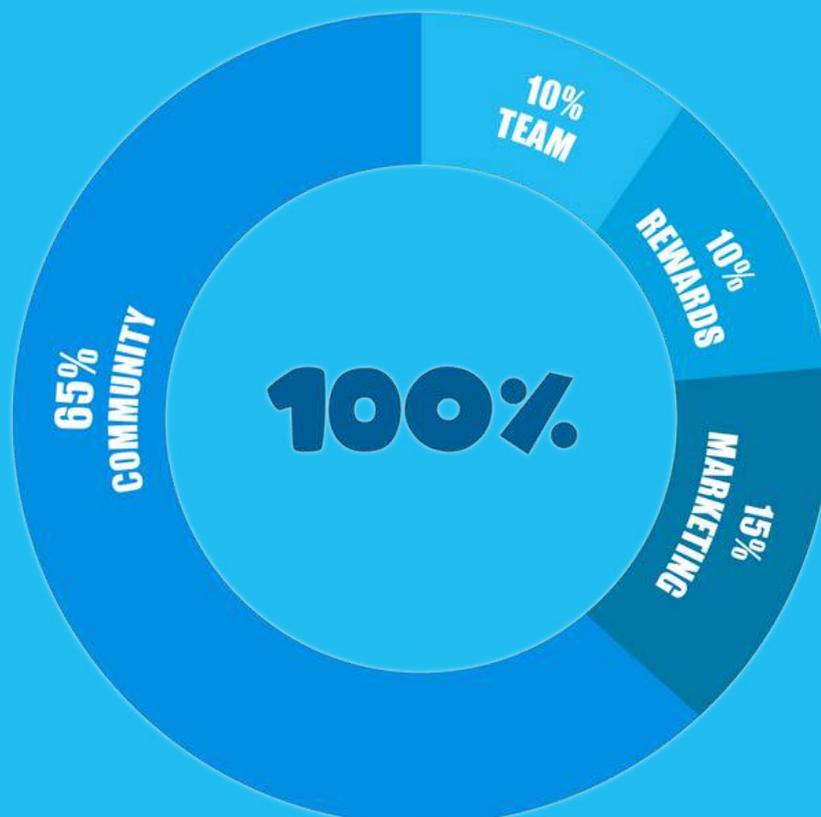

Marketing:

2% of each transaction is spent directly on marketing to increase brand awareness

Deflationary:

3% of each transaction is burned so that the coins in your wallet become more valuable over time

FUTURE GAMES

We believe that play-to-earn gaming is the future of crypto, our goal is to create a library of **A+ titles** that cater to each and every gamer. “**Doge Dash**” will be our flagship debut project followed closely in Q2 2022 by its 3D sequel ingeniously titled “**Doge Dash 3D**”.

Late summer of 2022 will see the unveiling of “**Doge Kart**” a “Mario Kart” inspired multiplayer racing game where players can compete online against other holders using their very own NFT karts to earn DogeDash rewards .

The **trilogy** of games will help us reach a wider audience through a series of genre defining crypto games all built on the **\$DOGEDASH** token.

METAVVERSE

2022 will be the year that sees **Doge Dash** find a home in the **Metaverse**.

We are currently in the process of acquiring land in Sandbox which will house “**Dogeworld**”. A world where our community can experience the whole Doge Dash eco-system in one place. With games, NFTs, merchandise and even experiential events all under one roof.

Dogeworld will be the epicenter of the brand, an ecosystem that allows holders to use their **\$DOGEDASH** tokens to buy and sell products and services.

ROADMAP

2022

2021

- Token Launch
- Game Launch
- NFT Collection
- Exchange listings

Q1 2022

- Fiat On-Ramp
- Trust Wallet Integration
- Leaderboard
- NFT Integration
- Mobile App Monetization

Q2 2022

- Doge Dash 3D
- 3D NFT Collection
- Marketplace

Q3 2022

- DogeKart Game
- Kart NFTs
- Cross-Chain Integration

Q4 2022

- Sandbox Metaverse "Dogeworld"

Doge Dash is the brainchild of award-winning and Grammy nominated Creative Director **Paul Caslin**

Paul heads up a team of the worlds best game and blockchain developers and marketing specialists focused on bringing the **Doge Dash** game and token to life.

Always at the cutting edge of new technology Paul and the team plan to revolutionize the crypto Gaming space and bring it to a mainstream audience.

CONCLUSION

Doge Dash is an answer to the question of how crypto games and ecosystems can emerge with mass adoption from both a crypto and wider mainstream audience. Doge Dash has become an integral part of the BSC stack of apps and games. We will work tirelessly to provide a fun, entertaining, challenging, and rewarding experience for everyone involved.
